

We are using Mathswatch to support Maths lessons and home learning.

All our secondary students have been registered on the Mathswatch website.

Go to [www.mathswatch.co.uk](http://www.mathswatch.co.uk) and login with a username and password. All students have been given Login Details and practiced using Mathswatch during their Maths lessons. If you need password reminders, please contact Miss Care.

If your child has been set a task by their teacher, it will appear in the Homework area. There is a link to the lesson, if they want to revise first, and a link to the homework itself. When your child completes both pages of an Online Homework the scores will be saved to the database. Their teacher will be able to see how well they did and leave feedback. If you want to work with your child, an effective strategy is to pretend that you have forgotten how to do something and ask them to show you how. Putting your child in the position of “teacher” is good for their confidence and gets them to talk about their thinking.

If no links are working, it may be that you have a Pop-Up Blocker. You will need to allow Mathswatch to use Pop Ups and we suggest that you add [www.mathswatch.co.uk](http://www.mathswatch.co.uk) to your list of trusted sites. If you are having trouble accessing content, it may be that you need to activate Flash in your browser. You can find more information on this in the technical section on the Mathswatch support site by clicking Help at after you've logged in.

The Maths Scheme of work is available on the school website. It is helpful to look at the scheme of work and focus on topics being covered in class at the time your child is at home.

Some students also have access to Rock Stars to practice their times tables. These students would have been given logins and practiced using the website in class. Go to [www.ttrockstars.co.uk](http://www.ttrockstars.co.uk).
