

Year 7 – Living the Dream Monster Project

Hi year 7s! Following on from the Monster Music that we made together last lesson, using keyboards and percussion instruments, I challenge you now to try your hand at making Monster Music using ipads!

A lovely music teacher and music tech specialist, Luke Crook, who works for Kent Music, has made two videos for you to watch.

You will need an ipad with the GarageBand app on it (this is FREE to download) – or you could probably also use a mobile phone with the same app. #

Once you have saved your projects, you could send them to me – email them to music@lgs.kent.sch.uk. If you need help doing this, just let me know.

Good luck Monsters!

Miss Howard
