

Year 9 Art Project

Many artists and designers have been making art work based on their feelings about the current world emergency. Making an art work is a one of the best ways to communicate how you are feeling especially if you find it hard to talk about it.

I know we are all feeling worried and unsure at this strange time.

Your project for this term is to create an art work which shows how you are feeling about these strange times we are living thorough at the moment.

Please start by using the internet to research artists and designers who have made work in response to the corona virus. Find 5 examples of their work and write a short paragraph saying how that work relates to the current world situation and if you can how it makes you feel.

Next do a mind map of what you could do for your art work try to come up with at least 4 possible ideas.

Once you have your idea please make your art work with whatever materials or media you have available to you in your home.

Here are some examples of art works I have found:

Good luck with your work, be imaginative with your ideas and use of materials.

I look forward to seeing what you create.

Stay well and safe

Mr Lithman
