

Pie in the sky

You will need to do some research in order to answer these questions.

I expect to see more than one-word answers where possible.

1. Name the different types of pastry which can be made
2. which fats can be used to make these pastry? Answer in detail.
3. How does the fat used affect the texture of the pastry. Explain
4. list the different types of flour which can be used to make pastry
5. Choose one type pastry and find the nutritional values, then explain these
6. How should fats and flours be stored? why.
7. who would you tell if you were to see mouse droppings and why?
8. Choose a pie recipe and if your families give you permission to make it could you please send me the pictures with you work. **OPTIONAL**
