

Homemade Boccia

If you enjoy playing Boccia in school, why not try to make your own set of Boccia balls and then challenge someone at home to a game. Items you will need to complete the task are: paper / newspaper, three different colours of paint and a paint brush.

Hold control and click on the link to access video that explains how to make your own Boccia set.

The man on the video explains different rules to the ones we play at school. Feel free to play his rules or the ones we play at school.

Have fun, stay active and most importantly stay safe.
