

Sapphire Class Newsletter

Term 3

This Term our topics are Misty Mountain, Winding River and Rocks

Happy New Year!

Sapphire Class had a positive start to 2026 and we have already learnt new words to do with our topic. We have looked at how the Water Cycle works and made a model to show erosion and deposition in rivers.

Over the course of the term, we will be learning all about different rivers and mountains around the world. Our Science is to do with rocks. We will describe different rocks, look at their properties and learn some names of rocks. Most of our English and artwork will be linked to the topics and we will be challenging ourselves to use the technical and scientific vocabulary in our writing. In Maths, we will start with measuring before going back to consolidate our learning of multiplication and division.

Key Vocabulary

meander source mouth delta tributary floodplain summit
erosion deposition avalanche crust magma tectonic plate terrain
tundra condensation evaporation precipitation

Important Dates

more details/reminders of these dates will be sent out nearer the time

Monday 2nd February - Parents Consultation evening

Friday 13th February - Chinese Culture and Community Day

Please can the pupils come in wearing their P.E kits on **Wednesdays** and **Thursdays** this term.

Just a little reminder to name all the children's clothing and belongings, this helps us to reunite it quickly and reduces anxiety when items are misplaced. The children are welcome to bring in a small healthy snack for break, for example a piece of fruit/vegetable or crackers.
