Term 2

This Term our topic is **Tribal Tales**

We have started our Tribal Tales topic with some Stone Age Art and learning about the time period through a Picture Books called **Stone Age Boy**. During the term, we will be finding out about Stone Age jobs including farming, the tools they used, everyday life and monuments. We will also look at how things changed moving into the Bronze and Iron Ages. Most of our English learning will be based on our topic, as will our art and DT work where we will create cave paintings and have a go at weaving.

Over the course of the term in our Science lessons, we will be investigating sound. This will include looking at how sound is made by different musical instruments, how sound travels and how our ears work.

In Maths, we will complete our work on subtraction before moving onto multiplication and division. At the end of term, we will recap learning on money ready for the Christmas Fair.

Key Vocabulary

subtract minus multiply times
divide share group tool
iron bronze monument sculpt
artefact settlement tribe

Important Dates

Anti-bullying week 10th-14th November

Odd Sock Day 10th November
